

**ATTORNEY GENERAL BILL SCHUETTE K-3 Introduction**

Length: 53 seconds

Hey everybody, I'm Bill Schuette Michigan's Attorney General. You know the Attorney General is the chief law enforcement official in Michigan and my job is to help everyone in Michigan be safe, including you.

That's why I am here today to talk about a very important program called the Michigan Cyber Safety Initiative or Michigan CSI. It's kind of like the TV show but this is for real.

Michigan CSI teaches you safety tips to help you make good choices online. It also reinforces the Golden Rule that my wife and I teach our children and that's always be kind and treat others the way you'd want to be treated.

We've created this program especially for you. Now, this is really all about safety, it's all about security and most of all it's all about you. Enjoy the presentation. Thanks a lot.
