

What is OK2SAY PSA Transcription?

Female Student 1: We've all been there. We've seen something that we know isn't right but we don't say anything because either we're afraid or we think someone else will do it. Unfortunately that other person may feel the same way you do.

Female Student 2: By using OK2SAY you can confidently report anything you feel threatens the safety of others. You can report situations that include weapons at school, assault, hazing, bullying, cyberbullying, threats, substance abuse and other topics where you feel unsafe.

Male Student 1: But how do you use OK2SAY? By using your mobile device you can call, text, email or use the OK2SAY mobile app. From a computer use the OK2SAY website form or email your tip.

Male Student 2: Once the tip is submitted you may interact with an OK2SAY operator. The OK2SAY operator will gather additional information.

Female Student 4: This means if you send a text you may get one back from OK2SAY asking for asking for more details. The OK2SAY operator's goals are to prevent bad things from happening in schools and to get the help needed as quickly as possible.

Female Student 5: As soon as the operator receives all of the details, who, what, where, why, OK2SAY operators will send the information to a school or agency that will handle the situation.

Female Student 6: Together we can change the culture of silence and ensure that it is always OK2SAY. Stand up and protect yourself and your peers because if you won't who will?

Female Student 7: If I don't stand up who will?

Male Student 1: If I don't stand up who will?

Female Student 8: If I don't stand up who will?
