

MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY
Office of Environmental Assistance

Do you own or operate a boiler or process heater?

If so, your equipment may be subject to new federal standards established to reduce toxic air emissions.

Is your equipment subject to one of the standards?

Use the Michigan Department of Environmental Quality's FREE online
Boiler NESHAP Navigation Tool!

www.deq.state.mi.us/eforms/BoilerTool/quiz.html

The Boiler NESHAP Navigation Tool simplifies your review of the standards. Use the program to answer simple successive questions and print a report detailing your conclusions.

The tool is an easy way to find your way through the complex Boiler National Emission Standards for Hazardous Air Pollutants (NESHAP), SUBPARTS 5D and 6J.

For boiler NESHAP questions e-mail
InfoBOILERNESHAP@michigan.gov or call the
Environmental Assistance Center
800-662-9278

For more details on the standards, see reverse side
and visit the DEQ Internet at:
www.michigan.gov/deq
and search for Boiler NESHAP

Even sources exempted from the Michigan Permit to Install Program under Rule 282 of the Part 55 rules may be subject to one of the boiler NESHAPs. Under these rules, affected boiler owner/operators must:

- submit notifications and reporting data verifying applicability and compliance;
- meet emissions limits using stack testing, monitor, and/or fuel analysis data and verify continuous compliance; and
- comply with operating and work practice standards.

QUICK COMPLIANCE REFERENCE

MAJOR SOURCE 5D KEY DATES

- Initial Notice of Applicability:
Existing: May 31, 2013
New: Within 15 days of start-up
- Initial Compliance Date:
Existing: January 31, 2016
New: Upon Start-up
- Initial Notice of Compliance:
Existing without emission limits: April 1, 2016
Existing with emission limits: September 27, 2016
New: Within 240 days of startup and within 60 days of completing all performance tests

AREA SOURCE 6J KEY DATES

- Initial Applicability Notification:
Existing: January 20, 2014
New: Within 15 days of start-up
- Initial Compliance Date:
Existing: March 21, 2014
New: Upon Start-up
- Initial Notice of Compliance:
Existing without emission limits: July 19, 2014
Existing with emission limits: September 17, 2014
New: Within 120 days of startup and < 60 days of completing all performance test
