

### ***Next Steps:***

The DEQ will carryout the following actions as resources and funding permits over the next few months:

1. The DEQ will work with the Lowell Center for Sustainable Production (LCSP) to develop an action plan that lays out an approach for implementing the responsibilities of the Green Chemistry Support Program. The plan will include stakeholder comments from this meeting and individual interviews with key stakeholders.
2. The DEQ will forward the draft action plan to the Green Chemistry stakeholders in mid March 2008 for review and comments. Stakeholder comments will be integrated into the plan to present to the Green Chemistry Support Roundtable when established.
3. The DEQ will establish a Green Chemistry Support Roundtable.
4. The LCSP will complete the action plan by late April 2008.
