

PREVENTION POLICY # 02

SUBJECT: Addressing Communicable Disease Issues in the Substance Abuse Service Network

ISSUED: October 1, 2006; Revised: April 1, 2011, and September 14, 2011

EFFECTIVE: January 1, 2012

PURPOSE:

This policy revises regional substance abuse coordinating agency (CA) requirements with regard to addressing communicable disease. The primary charge of communicable disease efforts is to prevent the further spread of infection in the substance using population. The original policy, effective October 1, 2006, converted guidelines issued in the 2004 Action Plan Guidelines document, to a policy requirement. The policy was revised in April 2011 to re-affirm many of the original policy requirements, and implemented new requirements for targeting resources.

This revision eliminates most of the prior requirements that were put in place even though, for the past several years, Michigan has not been a designated state required to expend block grant funding on communicable disease (CD) services. When the results of CD services, such as outreach, counseling and testing services, performed over the years were examined, very low prevalence rates of new HIV infection and other CDs were found. Therefore, on the basis of a low prevalence rate of CDs, primarily new HIV infection rates, and reduced availability of funding for core substance use disorder (SUD) services, the requirement for designated communicable disease funding is repealed beginning in fiscal year 2012. However, in recognition of the linkage between CDs and SUD treatment, minimal requirements have been retained to assure needs are met for persons with, or at-risk for, HIV/AIDS or other communicable diseases, and are in treatment for substance abuse.

SCOPE:

This policy applies to CAs and their provider network, which are a part of substance abuse services administered through the Michigan Department of Community Health (MDCH), Bureau of Substance Abuse and Addiction Services (BSAAS).

BACKGROUND:

Given the causal relationship between HIV/AIDS, hepatitis, other CDs, substance abuse, and the importance of recognizing the role of CD assessment in the development of substance abuse treatment plans for clients, a comprehensive approach is the most effective strategy for preventing infections in the drug using population and their communities.

The CA must assure persons with SUDs who are at-risk for and/or living with HIV/AIDS, sexually transmitted diseases/infections (STD/Is), tuberculosis (TB), hepatitis C, and other CDs, have access to culturally sensitive and appropriate substance abuse prevention and treatment to address their multiple needs in a respectful and dignified manner.

REQUIREMENTS:

Staffing

Each CA must assure staff knowledge and skills in the provider network are adequate and appropriate for addressing communicable disease related issues in the client population, as appropriate for each position within each provider, in accordance with the “Minimum Knowledge Standards” that follow:

Minimum Knowledge Standards for Substance Abuse Professionals - Communicable Disease Related

BSAAS mandates that all staff with client contact at a licensed treatment provider have at least a basic knowledge of HIV/AIDS, TB, Hepatitis, and STD, and the relationship to substance abuse. BSAAS provides a web-based training that will cover minimal knowledge standards necessary to meet this **Level 1** requirement. However, if a CA region desires to provide this training through other mechanisms, the following information must be included:

- HIV/AIDS, TB, Hepatitis (especially A, B, and C) and STD/Is, as they relate to the agency target population.
- Modes of transmission (risk factors, myths and facts, etc.).
- Linkage between substance abuse and these CDs.
- Overview of treatment possibilities.
- Local resources available for further information/screening.

CA regions are required to maintain a tracking mechanism to assure SUD provider staff completes Level 1 training.

Services

1. All persons receiving SUD services who are infected by mycobacterium tuberculosis must be referred for appropriate medical evaluation and treatment. The CA’s responsibility extends to ensuring that the agency, to which the client is referred to, has the capacity to provide these medical services, or to make these services available, based on the client's ability to pay. If no such agency can be identified locally (within reasonable distance), the CA must notify MDCH/BSAAS.
2. All clients entering residential treatment and residential detoxification must be tested for TB upon admission. With respect to clients who exhibit symptoms of active TB, policies and procedures must be in place to avoid a potential spread of the disease. These policies and procedures must be consistent with the Centers for Disease Control (CDC) guidelines and/or communicable disease best practice.
3. All pregnant women presenting for treatment must have access to STD/Is and HIV testing.
4. Each CA is required to assure that all SUD clients entering treatment have been appropriately screened for risk of HIV/AIDS, STD/Is, TB, and hepatitis, and that they are provided basic information about risk.

5. For those clients entering SUD treatment identified with high-risk behaviors, additional information about the resources available, and referral to testing and treatment must be made available.

Financial and Reporting Requirements

For the required services set forth in this policy, there are no separate financial or reporting requirements.

If a CA chooses to utilize state funds to provide communicable disease services beyond the scope of this policy:

1. The CA must ensure that recipients are persons with SUDs.
2. The Communicable Disease Provider Information Plan must be completed at the beginning of each fiscal year in conjunction with the CA Action Plan submission (Attachment A).
3. The Communicable Disease Provider Information Report must be completed within 60 days following the end of a fiscal year and submitted to mdch-bsaas@michigan.gov (Attachment A).
4. The CA must submit data to the HIV Event System [HES] for Health Education/Risk Reduction Informational Sessions and Single-Session Skills Building Workgroups, as well as HIV Counseling, Testing and Referral Services (CTRS), consistent with MDCH HIV/AIDS Prevention and Intervention Section (HAPIS) data collections methods.

PROCEDURE:

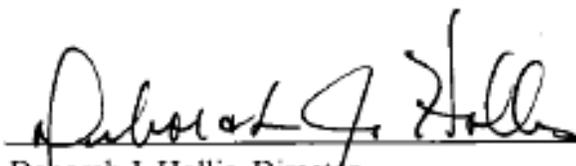

Procedures to meet these requirements are at the discretion of the CA.

COMMUNICABLE DISEASE PROVIDER INFORMATION PLAN / REPORT				
CA:		Fiscal Year:	Date Submitted/ Revised:	
Name(s) of CD Providers under Contract with the CA:				
CA Contact Person and E-mail Address:				
For each intervention listed below and provided in the CA's region, complete the following information:				
INTERVENTION <i>NOTE: Those items identified with an * are required to be reported in the HIV Event System (HES).</i>	PLAN <input type="checkbox"/> Original <input type="checkbox"/> Revised		REPORT (Actual #'s) Due Date: 60 days following the end of the fiscal year.	
	Estimated Number of Individuals to Receive Services	Estimated Number of Sessions to be Provided	Number of Individuals who Received Services	Number of Sessions that were Provided
<i>Column A</i>	<i>Column B</i>	<i>Column C</i>	<i>Column D</i>	<i>Column E</i>
* HE/RR HIV/AIDS Information Session				
* HE/RR Skills Building Workshops (single session)				
* HIV CTRS at SUD Treatment Provider (include site type/site number on separate attachment)				
* HIV CTRS at Other Locations (include site type/site number on separate attachment)				
* Other/Non-HIV CTRS Outreach Contacts (include schedule of locations and times on separate attachment)				
TOTALS				

Site Type/Site Numbers for locations where HIV CTRS will be provided:

Locations and Times where non-HIV CTRS Outreach will be provided:

COMMUNICABLE DISEASE PROVIDER INFORMATION PLAN/REPORT INSTRUCTIONS

If a CA chooses to continue to fund CD services, the information on this form must be completed. The form lists various communicable disease (CD) interventions/services that are eligible, although not required, to be funded through community grant dollars based on coordinating agency (CA) need and priority.

I. Completing the Plan

Columns B and C (Estimated Number of Individuals to Receive Services and Estimated Number of Sessions to be Provided) must be completed each fiscal year and is due to the Bureau of Substance Abuse and Addiction Services (BSAAS) with the CA's Action Plan submission.

Please use the check box provided to identify the CD Provider Information Plan as "Original" at the initial submission of the plan. If the CD Provider Information Plan data does change, please use the check box provided to identify that the plan was "Revised" as appropriate through the course of the fiscal year.

II. Completing the Report

For those services/events that an identified CD provider conducted for the CA, post the number of individuals who received the services and the number of sessions provided in Columns D and E.

Report Due Date: An annual report is required to be completed within sixty (60) days following the end of the fiscal year and submitted to mdch-bsaas@michigan.gov.

III. Questions

For questions or assistance regarding this form, contact the BSAAS Communicable Disease Specialist, at mdch-bsaas@michigan.gov or 517-373-4700.
