

EPP Certification Recommendations in MOECS

Individuals completing Michigan educator preparation programs are recommended for Standard certificates by their Educator Preparation Provider (EPP) using the [Michigan Online Educator Certification System](#) (MOECS). While the MOECS application must be initiated by the candidate, the key step in obtaining the recommendation for certification is communication and coordination with the EPP teacher certification officer. The following guidance supports Michigan certification officers' procedures for recommending candidates for initial certification as well as for additional endorsements on existing educator certificates.

This guidance document will walk you through the following processes:

- [Obtaining MOECS Access](#)
- Using the [MOECS Worklist](#)
- [Recommending Candidates](#)
- [Editing the Application](#)
- [Additional Endorsement Applications](#)
- [Modifying the Application Status](#)
- [Managing Multiple Applications](#)
- [Recommending Career and Technical Education \(CTE\) Candidates](#)

MOECS Access

Teacher certification officers must obtain access to MOECS. To obtain access to MOECS, you will need a [Michigan Education Information System](#) (MEIS) account.

- Be sure to maintain a record of your username, password and MEIS account number, which can be found during the set-up portion of the process on the page asking you to "Print this page for your records."
- If you have an existing MEIS account, you can use it and skip the step above.

Once you have a MEIS account, fill out the [MOECS Access Form for Education Preparation Providers](#). The completed and appropriately signed form must be submitted to: MDE-EducatorHelp@Michigan.gov. Once the form has been processed, you will receive an email confirming access to the system.

MOECS Worklist

Access granted to EPPs provides unique access to a worklist of candidates awaiting recommendation for initial certification as well as additional endorsements. To view the recommendation worklists and begin recommending educator candidates, log into your MOECS account.

Applications are completed by candidates and, without review, will be issued as submitted. This can result in errors and subsequent requests for correction by the Michigan Department of Education (MDE).

Once you have logged in to MOECS, click *Worklist* in the left navigation menu. Note: The menu defaults to *Teaching*.

Choose the certificate type for review.

- Click *Search*.

Following endorsements are selected for approval

Endorsement	Grade Level	Major/Minor
ELEMENTARY K-5 ALL SUBJECTS (K-8 ALL SUBJECTS IN SELF-CONTAINED CLASSROOM) (ZG)		

You will be asked if you are sure you would like to continue with the recommendation.

intranet.mdoe.state.mi.us says

Are you sure you want to approve?

Click *OK* to proceed. You will receive a confirmation message.

Confirmation Message

The recommendation has been successfully submitted to the Michigan Department of Education (MDE). The applicant has received an email confirming MDE has received the recommendation for certification, with a link to pay the certification fee. The certificate will be issued to the applicant once the fee is paid.

Click *Go to Teaching Worklist* to choose another application.

Editing the Application

If the application was submitted without an endorsement for which the candidate is qualified, you may add it prior to submitting the recommendation.

- Click *Add Endorsement*.
- Choose the endorsement from the drop-down menu and add grade level and major/minor designation.
- Click *Confirm* to save changes.
- Note that the added endorsement is already checked and is ready for recommendation.
- Add remarks, if necessary.
- Click *Continue*.

Select All	Application #	First Name	Last Name	SSN	Program	Certificate Type	Submitted On	Has Conviction?	Last Modified By	
<input type="checkbox"/>	318653				Elementary	Standard Teaching Certificate	10/9/2020		SYSTEM	Summary

Recommending Career and Technical Education Candidates

As of May 2021, MDE began issuing one teaching certificate for general and special education and Career and Technical Education (CTE) endorsements. Applications for initial certification will result in a Standard Teaching Certificate for candidates applying for general and/or special education as well as CTE endorsements. Candidates applying for CTE only will apply for a Standard Teaching Certificate as CTE certificates will no longer be issued.

Changes to the EPP worklists – Released May 2021

- The choice of *Occupational* has been removed from the worklist dropdown menu.
- Candidates can no longer apply for Standard CTE Certificates. Standard CTE Certificates will no longer appear in an institution worklist.
- Candidates applying for an initial certificate with only a CTE endorsement will submit an application for the Standard Teaching Certificate.

The screenshot shows the 'Teaching Worklist' application form. On the left is a navigation menu with 'Worklist' expanded to show 'Teaching', 'School Psychologist', 'School Counselor', 'School Administrator', 'Addl. Endorsements', and 'Approval'. 'Addl. Endorsements' is highlighted with a red box. The main form area contains the following fields:

- Certificate Type:** Select (dropdown menu)
- * Status:** Submitted (dropdown menu)
- Application #:** Text input field
- Social Security Number:** Text input field
- Personnel Identification Code:** Text input field
- Student Identification Number:** Text input field
- Uses Alternative Pass:** --Select-- (dropdown menu)

- If a candidate applies to add a CTE endorsement in the future, they will use the *Add Endorsements* process to add the endorsement to their current certificate.
- Institutions will choose the *Addl. Endorsements* button to process the applications.

This screenshot is identical to the one above, showing the 'Teaching Worklist' application form. In this version, the 'Addl. Endorsements' option in the 'Worklist' menu is highlighted with a red box, indicating the process for adding a CTE endorsement to an existing certificate.

- Institutions approved to offer CTE endorsements will see a new button, *Add CTE Endorsement*, on their worklist approval screen.
 - If the candidate forgot to apply for the CTE endorsement during the application process, approved CTE institutions may add the endorsement during the recommendation process.

Guidance for CTE Applicants and Existing CTE Certificate Holders

Issuing one certificate resulted in the following changes to the application certificate type drop-down menu:

- Shortened certificate type titles;
- CTE included with the Teaching Certificate type;
- Career and Technical Education Certificate type removed from the menu.
 - Teacher candidates applying for initial CTE certification must use the Teaching Certificate (includes Career and Technical Education) option.

Apply or Renew Certificate

Are you renewing your Michigan Certificate? Be sure to enter the professional learning you completed prior to beginning the application. Click "View Professional Learning" in the left navigation menu.

Ready to apply or renew? Choose the type of certificate from the drop down menu.

The confirmation message you receive upon submission of your application will inform you of the documentation required to process your application. For further clarification please review the [Criteria for Accurate Teacher Certificate Application Documentation](#).

Certificate Type: Select

- Select
- Teaching Certificate (Includes Career and Technical Education)**
- Interim Teaching Certificate - Alternative Route Program
- School Counselor License
- School Psychologist Certificate
- School Administrator Certificate

- Candidates will see a new screen and will choose from the options below.

Apply For Teaching Certificate

*** = Required**

* I want to apply for a teaching certificate with the following:

General and/or special education endorsements *

Career and Technical Education (CTE) endorsements **

Both

* Elementary, English, Mathematics, Science or Special Education, etc.
** Career and Technical Education endorsements are for teaching in career and technical education or career pathway courses (Construction Trades, Cosmetology or Fashion Design, etc.). You must have completed an approved program leading to CTE certification or old a valid out-of-state certificate to apply.

Changes to existing certificates within MOECS

To prepare for the migration to one teaching certificate, the following changes were made for current holders of both teaching and CTE certificates.

- Educators' CTE endorsements were added to their existing Standard or Professional teaching certificates.
- If the expiration dates of the two certificates did not match, the expiration date farthest in the future was used.
- Educators who held a Professional Teaching Certificate and a Standard CTE Certificate now hold a Professional Teaching Certificate.
- Educators who held a Professional CTE Certificate and a Standard Teaching Certificate now hold a Professional Teaching Certificate.
- Educators who held only a Standard or Professional CTE Certificate now hold a teaching certificate of the same level as their former CTE Certificate.
- Vocational Codes were eliminated and no longer appear on current and future teaching certificates.
 - Vocational Codes had been placed on teaching certificates as indicators that the educator also held a CTE certificate. Now that they are on the same certificate, it is already apparent and the additional indicator is not necessary.
- All historical certificates were marked as expired but are preserved and readily available for viewing/printing within MOECS.
