

Provider Verification Tool

Verify Referring and Ordering NPI

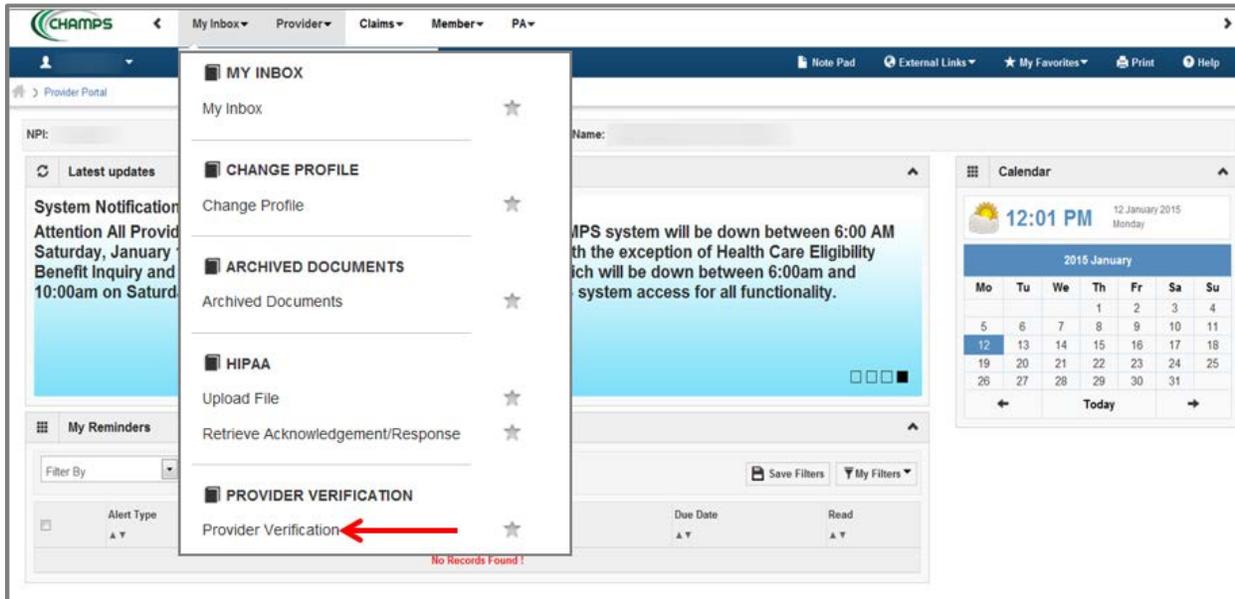

Provider's are encouraged to verify if a referring or ordering NPI is enrolled with Michigan Medicaid prior to rendering services. Referring or ordering providers are encouraged to share their individual NPI with the billing provider(s) to ensure the billing provider(s) can avoid a claim denial(s) for referring or ordering not being enrolled with Michigan Medicaid.

The CHAMPS Provider Verification Tool is available for providers to verify if any provider is enrolled with Michigan Medicaid. Referring, ordering and attending providers must be enrolled and active in the Michigan Medicaid program on the date of service. Please refer to [MSA 12-55](#) and [MSA 13-17](#) for additional policy information.

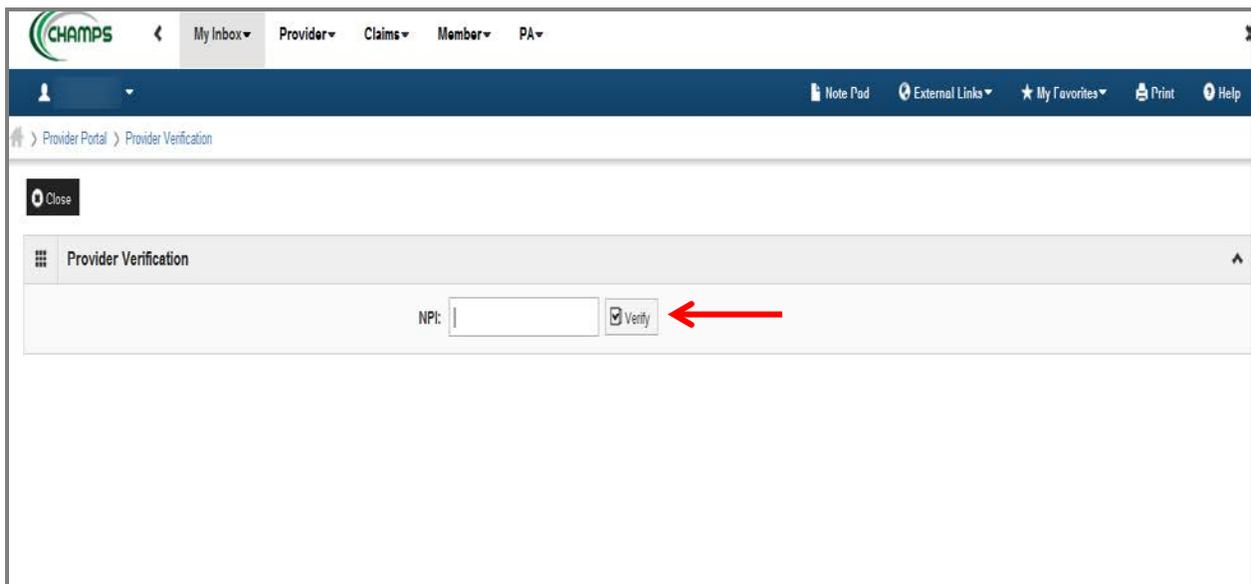

Below are steps on how to use the CHAMPS Provider Verification Tool:

1. Click the My Inbox tab

2. Select the Provider Verification option

3. Enter the NPI and click Verify to verify if a provider is enrolled with Michigan Medicaid

The screenshot shows the CHAMPS Provider Verification Details page. The page has a navigation bar at the top with 'My Inbox', 'Provider', 'Claims', 'Member', and 'PA' menus. Below the navigation bar is a user profile dropdown and utility icons for 'Note Pad', 'External Links', 'My Favorites', 'Print', and 'Help'. The main content area is titled 'Provider Verification Details' and contains the following information:

NPI:	Provider Name:
Business Status: Active	Primary Specialty: Family Medicine
	Specialty:

4. The screen will display the provider information, take note of the business status

- An active Business Status means the provider is enrolled with Michigan Medicaid.
- An inactive Business Status means the provider was at one time enrolled with Michigan Medicaid and is no longer active, the provider should contact Provider Enrollment.
- A result of 'no information found' will be displayed if the provider is not enrolled with Michigan Medicaid
