

# Michigan Assisted Reproductive Technology Summit

## Speakers

### **Susan Moran, MPH – Senior Deputy Director, Population Health and Community Services Administration, Michigan Department of Health and Human Services**

Susan Moran currently serves as the Senior Deputy Director of the Population Health and Community Services Administration for the Michigan Department of Health and Human Services. Ms. Moran was appointed to this position in May, 2014. In this role, Ms. Moran reports to the Director and is charged with leading agency wide efforts to promote and protect the health of the all Michigan residents through surveillance and response to health issues, prevention of illness and injury, improvements in access to care, and promotion of health equity.

Prior to her appointment as Senior Deputy Director, Ms. Moran served as the Director of the Bureau of Medicaid Program Operations and Quality Assurance for the Michigan Department of Community Health. In that role, she oversaw the administration of the state's Medicaid managed care program which provides health care coverage to a majority of the state's 2.0 million Medicaid beneficiaries. Ms. Moran led the development of the Medicaid program quality strategy that resulted in sustained improvement in health care indicators for the Medicaid population and top health plan rankings for Michigan Medicaid plans.

In her current role, Ms. Moran oversees the Bureaus of Laboratories; Epidemiology; Emergency Trauma and Preparedness; Local Health Services; Maternal Child Health; and Community Services. Ms. Moran graduated from the University of Illinois with a Bachelor of Science in Nursing and a Master of Public Health.

### **Dmitry Kissin, MD, MPH – Team Lead, Assisted Reproductive Technology Surveillance and Research, Women's Health and Fertility Branch, Division of Reproductive Health, CDC**

Dmitry Kissin is the Team Lead of the Assisted Reproductive Technology (ART) Surveillance and Research Team in Women's Health and Fertility Branch, Division of Reproductive Health, Centers for Disease Control and Prevention (CDC). ART Team is responsible for the National ART Surveillance System that monitors effectiveness and safety of ART in the United States. Dr.

Kissin is involved in wide-ranging epidemiological and clinical research in the field of reproductive epidemiology. His research focuses on public health aspects of fertility treatments, including access to reproductive care, prevention of iatrogenic multiple births, and long-term health outcomes of fertility treatments. Dr. Kissin currently serves as CDC Principal Investigator in the States Monitoring ART (SMART) Collaborative – a multi-state project aimed at linking information between ART surveillance, state birth records, and disease registries to develop population-based research and state-based surveillance of maternal and infant health outcomes of ART.

Dr. Kissin received his Doctor of Medicine degree (specialization in Obstetrics and Gynecology) from the St. Petersburg State Medical University in Russia and Master of Public Health degree (specialization in Epidemiology) from the State University of New York in the United States. In 2003, Dr. Kissin joined the CDC as an Epidemic Intelligence Service (EIS) officer. At CDC, Dr. Kissin worked on a variety of projects, both domestically and internationally, in the areas of women's health and maternal and child health, ranging from family planning, prevention of mother-to-child HIV transmission, prevention of influenza among pregnant women, and most recently – infertility and ART.

**Eli Y. Adashi, M.D., MS, MA (ad eundem), CPE, FACOG –  
Professor of Medical Science, Former Dean of Medicine  
and Biological Sciences, The Warren Alpert Medical  
School, Brown University**

The former Dean of Medicine and Biological Sciences at Brown University, Dr. Adashi is an academic physician-executive. Harvard-educated in Health Care Management (MS, 2005), Dr. Adashi is a member of the *National Academy of Medicine* [formerly the *Institute of Medicine* (IOM) of the National Academy of Sciences], the *Association of American Physicians* (AAP), and the *American Association for the Advancement of Science* (AAAS).

Dr. Adashi received his medical degree in 1973 from the Sackler School of Medicine, completed residency training in Obstetrics and Gynecology at Tufts University (1974-77), and pursued fellowship training in the subspecialty of Reproductive Endocrinology and postdoctoral training in reproductive biology at Johns Hopkins University and at the University of California at San Diego, respectively (1977-81). Faculty positions were held at the University of Maryland (1981-1996), the University of Utah (1996-2004), and Brown University (2004-present). Prior to joining Brown University, Dr. Adashi served as the John A. Dixon Endowed Presidential Professor and Chair of the Department of Obstetrics and Gynecology at the University of Utah Health Sciences Center (1996-2004) and the founder and leader of the Ovarian Cancer Program of the Huntsman Cancer Research Institute (1999-2004).

Dr. Adashi has been the recipient of continuous National Institute of Health (NIH) funding from 1985 to 2005 inclusive of a Research Career Development Award. Mentor to over 50 postdoctoral trainees, and

the author or co-author of over 300 peer-reviewed publications, Dr. Adashi contributed over 120 book chapters/reviews, and co-edited or edited 13 books in the general area of reproductive medicine with special emphasis on ovarian biology. NIH service included but was not limited to membership with the National Council of the National Institute of Child Health and Human Development (NICHD)(1997-2001), the Reproductive Endocrinology Study Section (1988-1992), and the Selection Committee of the Reproductive Scientist Development Program (RSDP)(1988-2005). Dr. Adashi is the former Editor-In-Chief of Seminars in Reproductive Medicine and the former Associate Editor of Endocrinology, Journal of the Society for Gynecologic Investigation, Reproductive Medicine Review, Seminars in Reproductive Endocrinology, Reproductive Medicine Review, and Reviews in Endocrine and Metabolic Disorders.

A recent Franklin fellow and Senior Advisor on Global Women's Health to the Secretary of State Office of Global Women's Issues (1st term of the Obama Administration) Dr. Adashi is a member of the Board of Governors of Tel Aviv University, an advisor on Perinatal Care Measurement to the National Committee for Quality Assurance (NCQA), and chair of the Medical Executive Committee and the Medical Advisory Council of the Jones Foundation for Reproductive Medicine. Dr. Adashi is a former member of the Board of Directors of Physicians for Human Rights, the Council on Foreign Relations, the Global Agenda Council on Population Growth of the World Economic Forum, the Medicare Evidence Development & Coverage Advisory Committee (MEDCAC) of the Centers for Medicare & Medicaid Services (CMS), and a former advisor to the WHO, the World Bank, the Rockefeller Foundation, and the Bill and Melinda Gates Foundation. A Fellow and Eundem with the Royal College of Obstetricians and Gynecologists (FRCOG) and a former Examiner and Director of the Division of Reproductive Endocrinology of the American Board of Obstetrics and Gynecology (ABOG), Dr. Adashi has served as President of the Society for Reproductive Endocrinologists (SRE), the Society for Gynecologic Investigation (SGI), and the American Gynecological and Obstetrical Society (AGOS).

Elected to the IOM in 1999, Dr. Adashi has served as a member of the committees on Antiprogestins: Assessing the Science (1993), Understanding Premature Birth and Assuring Health Outcomes (2005-2006), Human Embryonic Stem Cell Research (2006-2009), and on Women's Health Research (2008-2012). In addition, Dr. Adashi served as co-chair of the Committee on Reducing Childbirth Mortality in Indonesia (2012-2013). At present, Dr. Adashi is a member of the Board on Health Sciences Policy of the IOM.

As a tenured Professor of Medical Science at Brown University, Dr. Adashi is a member of the Brown Center for Prisoner Health and Human Rights and maintains multiple educational responsibilities inclusive of the co-directorship of the Healthcare in America course (a highly subscribed medical school elective) and the co-directorship of the Healthcare Policy Concentration (an elective for medical students with special interest in Healthcare Policy).
