Construction Congestion Cost (CO3) Traffic Regulating Analysis

The Construction Congestion Cost (CO3) Software is the primary tool for determining user delay and cost in work zones. An error in calculation was discovered in the Flag tab within the CO3 Flag spreadsheet. This error causes various results to be displayed depending on what order you select and click the compute buttons.

The Construction and Technology, Pavement Management Unit has found the specific problem and provided a corrected spreadsheet that eliminates the error. The revised CO3 Flag spreadsheet is maintained on the "CO3 Analysis" webpage under the "Links" section on the Work Zone Safety and Mobility main web site which is:
