Work Zone Law Enforcement Funding

The statewide work zone law enforcement program has historically been funded with State Trunkline Funds (STF). The 2010 approved budget eliminates the use of these funds for work zone law enforcement.

Effective immediately the use of state funds for 2010 work zone law enforcement is suspended. Please contact your state and local law enforcement personnel and inform them of this suspension.

All offices are strongly encouraged to continue relationships with their law enforcement agencies and request law enforcement presence in work zones as appropriate. Please encourage active work zone law enforcement activities with these agencies as part of their regular enforcement responsibilities. MDOT's continued partnership with law enforcement agencies is essential and we remain committed to providing safety and mobility in work zones across the State of Michigan.
