

## Cargo Theft: Larceny From A Vehicle

When Offense 2305, Larceny–Personal Property from Vehicle, is selected as the applicable offense in a case report, a number of required fields pop up. Unless the theft involves a commercial shipment of freight moving in commerce, select “no” in the cargo theft dropdown menu.

The official MICR definition of cargo theft is: the criminal taking of any cargo including, but not limited to, goods, chattels, money, or baggage that constitutes, in whole or in part, a commercial shipment of freight moving in commerce, from any pipeline system, railroad car, motor truck, or other vehicle, or from any tank or storage facility, station house, platform, or depot, or from any vessel or wharf, or from any aircraft, air terminal, airport, aircraft terminal or air navigation facility, or from any intermodal container, intermodal chassis, trailer, container freight station, warehouse, freight distribution facility, or freight consolidation facility. For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the final destination, regardless of any temporary stop while awaiting transshipment or otherwise.

MICR is sending out warning reports asking your agency to verify that any case reports which have “yes” selected in the “cargo theft” dropdown really did involve the theft of a commercial shipment of goods. Please pay careful attention to verify whether or not this was actually the case.
