Transfer of an existing certificate

Existing NEZ certificates may be transferred to a new owner by filing a completed application and a copy of the warranty deed for the subject property with the State Tax Commission.

Tax Advantage of an NEZ Exemption

The NEZ tax for a **“Rehabilitated Facility”** is determined by multiplying the total mills levied as ad valorem taxes by the taxable value, not including land, for the tax year immediately preceding the effective date of the certificate, unless the effective date is adjusted by MCL 207.780(3). If the effective date is adjusted or the certificate is approved after 12/31/2005, the taxable value remains “frozen” until the last three years of the certificate and is then adjusted as described below.

The NEZ tax for a **“New Facility”** is determined by multiplying one-half the Principal Residence Exemption state average tax rate mills levied in this state in the immediately preceding calendar year by the taxable value of the “New facility,” not including land, until the certificate expires, unless the effective date is adjusted by MCL 207.780(2). If the effective date is adjusted or the certificate is approved after 12/31/2005, the exemption is adjusted as described below. The Principal Residence Exemption state average tax rate is set by the Michigan Department of Treasury, Assessment and Certification Division, on an annual basis.

In the last three years of the exemption, the exemption applies to only the number of mills levied for the county and LGU operating purposes (does not include debt millage); multiplied by the current taxable value. Any county or LGU debt millage and all other millages levied by all other taxing authorities would be levied at the full millage. Land is not included in this exemption.

In the tax year two years before the certificate expires, the percentage of county and LGU operating mills paid changes to **five-eighths** (does not include debt millage); multiplied by the current taxable value.

In the tax year one year before the certificate expires, the percentage of county and LGU operating mills paid changes from five-eighths to **three-fourths** (does not include debt millage); multiplied by the current taxable value.

In the year that the certificate expires, the percentage county and LGU operating mills paid changes from three-fourths to **seven-eighths** (does not include debt millage); multiplied by the current taxable value.

The LGU may grant an exemption for 6 to 15 years, or 11 to 17 years for a historic building.
