Mental Health and Substance Abuse Capitation Summary

December 2003

V1

Summary of the Michigan Medicaid capitation data. Including breakdown of covered lives and revenue by agency providing services and by county.

The first section of this report is based on the initial values for the month shown above. Subsequent month's data will include counts retroactively associated with this month, but these reports are a summary of the initial values and are not updated as additional data becomes available.(See the Trends section for year-to-date patterns including all reported data available as of the month shown above.)

Retroactively eligible clients are paid for through an adjustment in the capitation rate paid for current eligibles. Therefore, while additional enrollees are expected for this month, the revenue figures will not change.

This data does not include any gross adjustments made to the revenue stream. Only revenues paid out through the captiation system are shown.

Michigan Medicaid - Trends

Mental Health and Substance Abuse Capitation Trends

December 2003

Summary of the Michigan Medicaid capitation data. Including breakdown of covered lives and revenue by agency providing services and by county.

This supplemental section is based on the cummulative values as of the date shown above. This includes the initial values reported and all subsequent adjustments associated with each month. This data in this supplement will be updated as additional data becomes available.

Retroactively eligible clients are paid for through an adjustment in the capitation rate paid for current eligibles. Therefore, while additional enrollees are expected for this month, the revenue figures will not change.

This data does not include any gross adjustments made to the revenue stream. Only revenues paid out through the captiation system are shown.

MA Trends - Population and Revenue - Summary

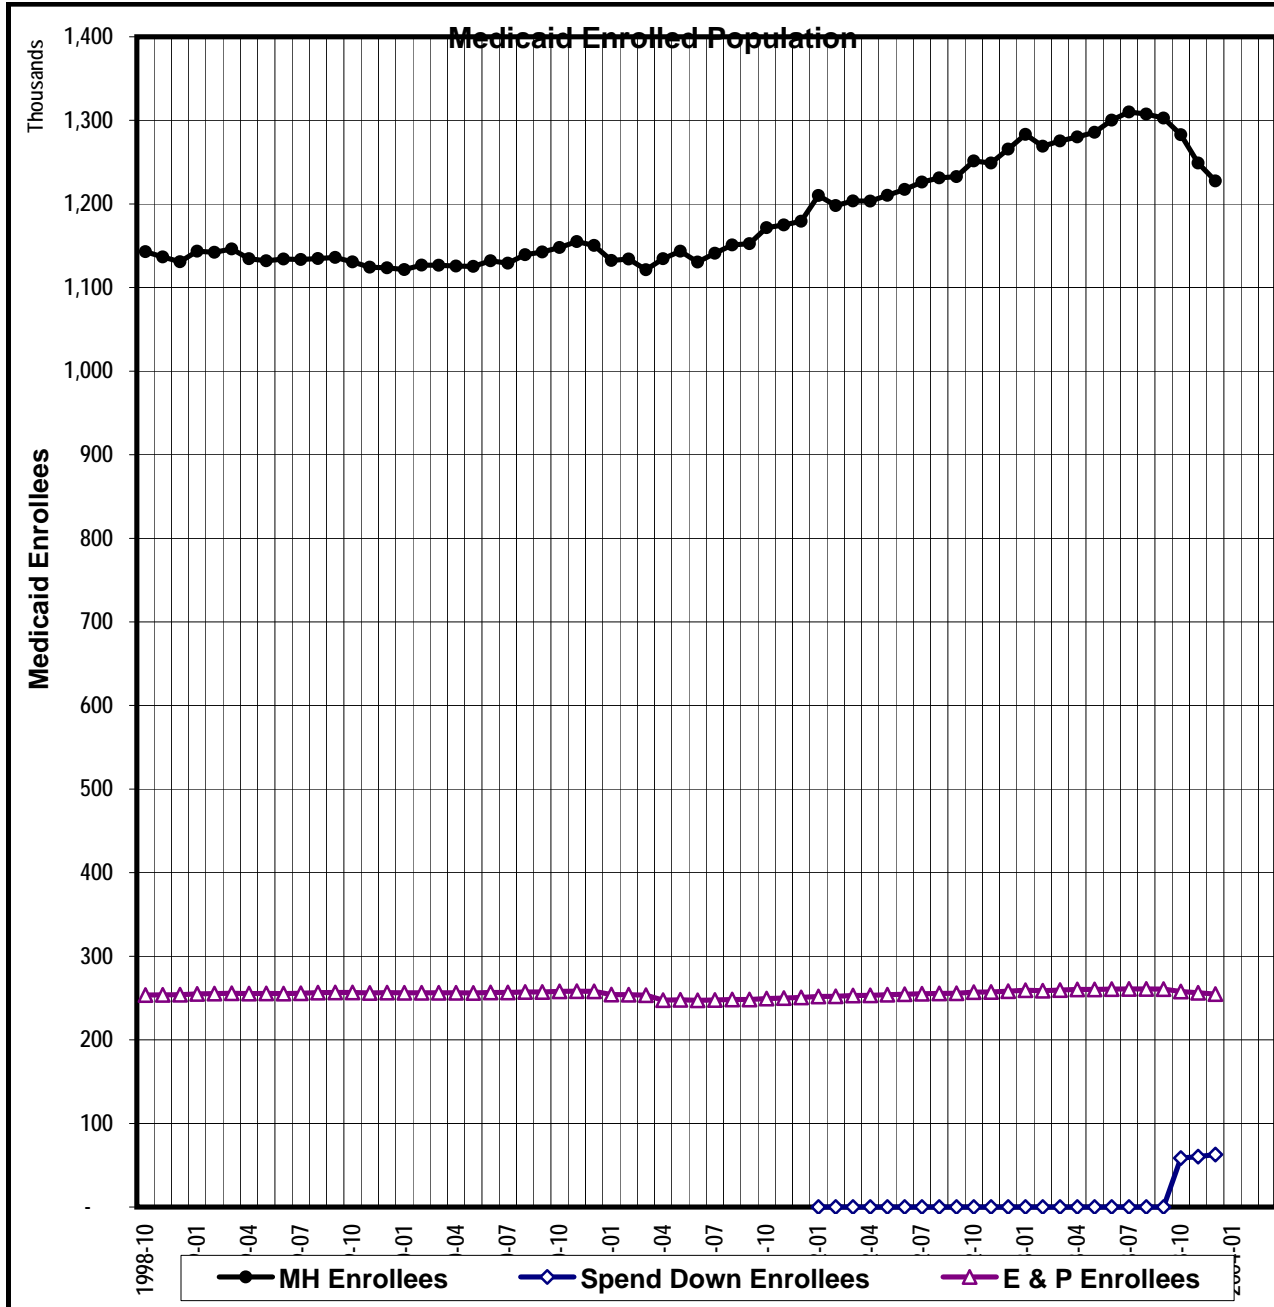

2003-12

Note: Population trends for the most recent 3-4 months will always show an apparent decline due to retroactive eligibility.
