

REPORT FOR
SECTION 426

SERVICES TO MINORS REFERRED OR
ASSIGNED BY THE COURTS
FY 2002

STATE OF MICHIGAN

*Michigan Department
of Community Health*

Jennifer M. Granholm, Governor
Janet Olszewski, Director

June 2003

**DEPARTMENT OF COMMUNITY HEALTH
Mental Health Services to Minors
Assigned or Referred by the Courts**

As part of Public Act 519, appropriations for the Department of Community Health for purposes related to mental health, public health and medical services for the fiscal year ending September 30, 2003, requires the submission of certain reports. One of those reports is detailed in Sec. 426 of that Act.

Sec. 426 (1) By May 31, 2003, the department shall assist the Family Independence Agency in providing the senate and house appropriations subcommittees on community health, the senate and house fiscal agencies, and the state budget director with a report on mental health services to minors assigned or referred by the courts and found to meet CMHSP clinical and financial eligibility determination requirements for fiscal year 2001-2002.

Information used in this report regarding diagnoses was obtained in December 2002 from all Community Mental Health Service Programs (CMHSPs) for the period from October 1, 2001 through September 30, 2002. The financial information and information regarding services provided from these mental health service programs was obtained in January 2003. This is the first such report and contains information on youth receiving services after their referral by the courts. Information on those youth referred by the courts but did not appear at a CMHSP for treatment services is not available.

Section 426 (2) The report described in subsection (1) shall contain information for each CMHSP calculated by the department from fiscal year 2001-2002 data reporting requirements and a statewide summary, each of which shall contain at least the following information:

For each CMHSP, this report contains age groupings for the minors referred by the courts for evaluation who were served, the type of disability, the number of minors with severe functional impairment and the number of minors receiving residential services. It also provides statewide totals for each of these categories.

Section 426(2)(a) requires the number of minors meeting the criteria in subsection (1) and evaluated as a result of court assignment or referral.

In FY 01-02, there were 318 minors referred by the courts for evaluation

Section 426(2)(b) required the number of minors meeting the criteria in subsection (1) and receiving treatment after the court assignment or referral.

All 318 minors referred by the courts received services in FY 01-02; 38 of these minors received residential services.

Section 426(2)(c) requires a breakdown of minors meeting the criteria in subsection (1) receiving treatment, by the following categories:

- (i) **Age** - Of the 318 minors referred by the courts for evaluation who appeared for services, 265 (83%) were age 13-18; 50 (16%) were age 4-12 and 3 (1)% were under age 4.
- (ii) **Primary diagnosis, stated as a specifically named condition corresponding to the terminology employed in the latest version of the diagnostic and statistical manual of the American Psychiatric Association.** The number of recipients for each of the children's conditions (developmental disability (DD), severe emotional disturbances (SED) and Unknown) is displayed statewide and for each CMHSP.
- (iii) **Whether or not the score on the state designated outcome instrument indicated marked or severe functional impairment.** 125 of the 318 youth (39%) were determined to have Child and Adolescent Functional Assessment Scale scores indicating "severe" functional impairment.
Average length of stay in CMHSP treatment. A report on length of stay was not available.
- (v) **Unduplicated count of the number receiving residential service and average length of stay in residential service.** 38 of the youth (12%) received residential services. No length of stay data is available on these youth.
Number of recipients served under each categorical children's service heading maintained by the department for standard reporting purposes. The number of youth receiving services according to each children's service heading is given for each CMHSP. A statewide total is also included.

NOTE: Data reported to the State from CMHSPs is updated periodically and the information contained in the current report represents the data received from the CMHSPs on or before May 31, 2003. The content and accuracy of the data is the responsibility of the CMHSPs.
