Doses Administered

- Total Vaccinations Administered: 80,954 doses
 - 52,203 resident doses administered
 - 28,751 staff doses administered

Additional Pharmacy Partner

Managed Health Care Associates (MHA) Pharmacy

- MDHHS has recently added an additional pharmacy partner to the Federal Pharmacy Partnership for Long-term Care Program
- MHA is largest network of independent long-term care pharmacies in the country
- Independent pharmacies in Michigan MHA will be utilizing include: Pharmacy Care Advocates (PCA), Genoa, Guardian, and Hometown pharmacies

MHA Pharmacy cont.

- Goal is to complete 1st dose clinics for all facilities as soon as possible
- MHA has previous partnerships with many residential, assisted living, and other long-term care facilities
- Approximately 1,100 facilities will be transferred from Walgreens to MHA
- No LTC facility will have a clinic scheduled date later than their originally scheduled clinic if they are transferred to MHA

Pharmacy Communications

LTC facilities transferred from Walgreens to MHA:

- If they have been contacted by initially by Walgreens, they should expect communication from both Walgreens and MHA informing them that their facility has been transferred.
- If they were assigned to Walgreens but have not been contacted yet, they can only expect communication from MHA.

Updated Resources

- An updated FAQ and List of participating LTC facilities will be posted to the www.Michigan.gov/COVIDvaccine website
- Click on the LTC Pharmacy Partnership box
 - New facility list will reflect transfer of LTC facilities to MHA pharmacies

Facility Outreach

- MDHHS will be contacting all the facilities that previously opted out of the LTC Pharmacy Partnership Program
- Goal is to explain the program further and ask if they would like to opt back into the program
- Want to ensure that all facilities that were enrolled have the opportunity to participate in the program
