Fiscal Year 2010-2011
TITLE XX SOCIAL SERVICES BLOCK GRANT PLAN**

FINAL PLAN

**STATE OF MICHIGAN, Department of Human Services
Financial and Administrative Services Administration**

FOREWORD

The Omnibus Reconciliation Act of 1981 amended Title XX of the Social Security Act to establish the Social Services Block Grant program October 1, 1981. Under this program, grants are made to the 50 states, the District of Columbia, and other eligible jurisdictions for use in funding a variety of social services directed toward the needs of individuals and families.

Social services are directed at five goals in the Social Services Block Grant statute to: prevent, reduce or eliminate dependency; achieve or maintain self-sufficiency; prevent neglect, abuse or exploitation of children and adults; prevent or reduce inappropriate care; and secure admission or referral for institutional care when other forms of care are not appropriate. Within the specific limitations of the law each state has the flexibility to determine what services will be provided, who is eligible to receive services, and how funds are distributed among the various services within the state. State or local Social Services Block Grant agencies may provide these services directly or purchase them from other public or private agencies and/or individuals.

The governor of Michigan has designated the Department of Human Services as the state agency to receive and administer the Title XX Social Services Block Grant. The department has produced this plan to meet the requirements for receiving Title XX Social Services Block Grant funds and to facilitate public comment on the services to be supported by Title XX funds.

The draft plan was published and made electronically available in the month of July 2010 and announced to Department of Human Services local offices, the Legislature, and other interested groups and individuals for comment. The public comment period was the month of July 2010. A designated electronic mailbox (DHS-SSBGMail@michigan.gov) was been created to receive comments from interested groups and individuals on the draft plan.

A copy of this plan is available upon request by contacting:

INTRODUCTION

MICHIGAN DEPARTMENT OF HUMAN SERVICES

MISSION

The Michigan Department of Human Services assists children, families and vulnerable adults to be safe, stable and self-supporting.

VISION

We will reduce poverty; help all children have a great start in life, and help our clients achieve their full potential.

PHILOSOPHY

Public Act 280 of 1939 as amended, and Public Act 238 of 1975 as amended, define our responsibility to help individuals and families that are unable to provide for, or to protect, themselves. Our employees are dedicated to serving the people of Michigan through effective services and supports. We are committed to professional standards, growth and development.

The Department provides programs and services to strengthen Michigan's families, encourage employment, provide financial and emotional support of children, increase personal responsibility, and involve communities in a team approach to strengthen families. Intervention in peoples' lives occurs in the least intrusive manner for the shortest possible time, maintaining respect for each person's dignity, ethnic background, distinct culture, and unique characteristics.

OPERATING PRINCIPLES

The Department of Human Services' major operating principle is to help people who are trying to help themselves. To that end, the effectiveness and necessity of programs are continually evaluated.

Protection of Those at Risk

All children and vulnerable adults deserve a safe, stable and secure home. Family life can best be strengthened and stabilized by preventing social problems. We provide resources and support services to help strengthen families and keep them intact. When children and vulnerable adults need protection from harm, we seek court intervention. When safely possible, we reunite children removed from their parents because of abuse or neglect. When reunification is not in the child's best interests, we petition for termination of parental rights and find an appropriate relative or adoptive placement.

The elderly and disabled are protected in their own homes. If they are unable to remain in their homes, we assist them in finding an alternative placement in the least restrictive setting to protect them from harm and to provide the appropriate level of care.

Adult victims of domestic and sexual violence have a right to safety, privacy, autonomy, and dignity. Specialized services and institutional response and change work are critical to the treatment and prevention of domestic and sexual violence and are key components of our work.

Public Trust and Accountability

Public trust and accountability to the people of Michigan requires efficient, responsible, and accurate management of programs and resources. We assure that people receive the benefits and services to which they are entitled from both this department and other agencies. At the same time, we pursue all possible avenues to assure integrity of all programs. Issues of fraud are vigorously pursued and funds are recovered by the state.

Technology

We constantly upgrade the use of technology and automated systems to maximize our human resources, to enhance the skills of our workforce, and to upgrade the delivery of service.

Interdepartmental and Intergovernmental Cooperation

Social issues involve many agencies: public and private; local, state and federal. We work diligently to coordinate and cooperate with other agencies for the best use of all available resources. We encourage innovation and efficiency, targeting programs to the needs of the people being served and the creation of effective services for families.

A partnership with our federal colleagues exhibits an atmosphere of cooperation to resolve mutual problems, to allow the maximum level of federal reimbursement, and to minimize federal intrusion.

As the largest employer of human service employees in Michigan, we are strengthening ties with Michigan's colleges and universities to assure that the social work curriculum addresses essential skills.

DEPARTMENT OF HUMAN SERVICES**

THE INTENDED USE OF THE FISCAL YEAR 2011 SOCIAL SERVICES BLOCK GRANT

Department Funding and Use of the Social Services Block Grant

Department Funding

Social Services Block Grant funds constitute approximately 1.1% of total funding and about 1.4 % of all Federal funding for the Michigan Department of Human Services. The Social Services Block Grant funds are used to help support services, many of which also receive funding from sources other than Title XX. The distribution of Social Services Block Grant funds is influenced by many factors, including:

- The availability of other federal, state and local funds.
- The availability of services from other federal or state agencies, private non-profit agencies, local agencies or family members.
- The extent to which each service contributes to achieving Department goals and objectives.

Use of the Social Services Block Grant

The intended use of Social Services Block Grant funds in 2010/2011 continues to be the support of service programs and activities aimed at achieving department goals and the federal purposes specified in Title XX of the Social Security Act. Social services are directed at five goals in the Social Services Block Grant statute:

- Prevent, reduce or eliminate dependency;
- Achieve or maintain self-sufficiency;
- Prevent neglect, abuse, or exploitation of children and adults;
- Prevent or reduce inappropriate care; and
- Secure admission or referral for institutional care when other forms of care are not appropriate.

The services outlined in this report are activities intended to be carried out in fiscal year 2010/2011.

Transfer of Temporary Assistance to Needy Families Block Grant Funds to the Social Services Block Grant

The current TANF regulations authorize the use of up to 10% of a State's Temporary Assistance for Needy Families (TANF) Block Grant to carry out programs pursuant to Title XX of the Social Security Act.

The Department of Human Services intends to take advantage of this transfer authority in fiscal year 2010-2011. TANF transferred Title XX funds will support activities as described in this report, subject to the PRWORA requirement that the TANF funds transferred to Title XX shall be used only for programs and services to children and their families whose income is less than 200% of the income official poverty line applicable to a family of the size involved.

The Child Development and Care Program provides financial help to eligible families who need child care in order to work, participate in approved education or training programs, or for approved family preservation activities. In fiscal year 2011, the Social Services Block Grant will be used to provide financial help to eligible families who need child care for any or all of these reasons. Care settings include child care centers; family child care homes and group child care homes, as well as relative care providers and day care aides.

The Child Care Licensing Division is responsible for the licensing of child care facilities and the protection of children through regulation of family child care homes, child care centers and group child care homes. Regulatory activities include issuance of original licenses, renewal inspections, complaint investigations, verification of corrective actions, and taking disciplinary action as needed to protect the children served.

Categories or Characteristics of Recipients

To receive Child Development and Care services, the client must belong to one of the following eligibility groups, and have a valid need reason (i.e., employment, education, and family preservation).

Categorically Eligible:

Child Development and Care services are provided to Children's Protective Services and Preventive Services cases based on the need for family preservation and to licensed foster parents engaged in employment, approved education/training activities, or approved family preservation treatment activities. An income test is not required for these clients.

Child Development and Care Services are available to Family Independence Program (FIP) and Supplemental Security Income and former FIP recipients for a limited time to participate in approved education/training activities, employment or approved family preservation treatment activities. An income test is not required for these clients.

Income Eligible:

Child Development and Care Services are available to other families whose income is at or below the limits shown in the Department's Child Development and Care Income Eligibility Scale. Child care must be needed for the parent to pursue a high school diploma/GED, approved education/training activities, to work, or for approved family preservation reasons.

Criteria Applied in Determining Eligibility for Services

Eligibility for Child Development and Care services exists when the department has established all of the following:

- There is a signed application requesting Child Development and Care services, and
- each parent/substitute parent is a member of a valid ELIGIBILITY GROUP, and
- each parent/substitute parent meets the NEED (Reason) criteria and
- an eligible provider is providing the care, and

- all eligibility requirements are met.

The child(ren) needing child care services must be:

All other families have a co-pay ranging from 5% to 30% of the cost of care up to the department maximum. Family size and income determine the co-pay. Families will incur additional costs if their child care provider charges more than DHS rates.

10. FOSTER CARE SERVICES - ADULTS

Description of Activities Carried Out under the Social Services Block Grant

The Adult Community Placement (ACP) program provides services that assist in achieving the least restrictive community based care settings for adults who require care in licensed community placement: Adult Foster Care (AFC facilities), homes for the aged, or nursing care facilities. ACP works to maximize independence and self-determination for customers by assisting in maintaining connections with family, other community members, and community activities.

The ACP program provides pre-placement services and assistance with placement for adults who need care in licensed community placement settings (adult foster care facilities, homes for the aged, and nursing care facilities). Post-placement/follow-up services are also provided, as are transitional services for individuals relocated when nursing homes close.

Specific ACP program services include: case management, counseling, education and training, health related services, information and referral, money management, pre-placement services, post-placement services, and protection.

The Adult Foster Care Licensing Division protects vulnerable adults by regulating and consulting with licensees. DHS regulates this industry through initial licensure, renewal inspections,

complaint investigations, verification of corrective action plans and taking disciplinary action as needed to protect individuals served.

Categories of Characteristics or Recipients

DHS Adult Services workers provide program services to adults 18 or older who are elderly, frail, physically handicapped, emotionally impaired, or mentally ill. All clients are Medicaid eligible and most receive Supplemental Security Income (SSI).

The Children's Foster Care Program is closely tied to the Children's Protective Services Program. The Children's Protective Services Program identifies those children who cannot be protected from abuse or neglect in their own homes. Indian Outreach Services (IOS), through coordination and support from the Department of Human Services' Office of Native American Affairs (NAA), was established in 1975 to assist Indian people with problems of a social, education, psychological, physical, economic and/or cultural nature to improve their quality of life. Services are presently provided in select counties throughout the state, by Indian Outreach Workers (IOWs) who share the values, traditions, customs, and language of the Indian community.

Indian outreach workers assist Native American families in Michigan to attain self-sufficiency. The program focus is to preserve, rehabilitate, strengthen and reunite families. Indian Outreach workers provide information and referral services, homemaker services, serve as a liaison between the Native American community, state and local agencies, Indian centers, schools and the non-Native American community. They strengthen families and encourage independence through the provision of culturally relevant services that enhance the family's ability to meet their financial, medical and social needs. The Indian Outreach worker also assists in the provision of services to families that meet the standards established in the Indian Child Welfare Act (ICWA) for the preservation of Native American families.

E. Domestic and Sexual Violence Prevention and Services

Description of Activities Carried Out under the Social Services Block Grant

The Michigan Domestic Violence Prevention and Treatment Board, administratively housed in the Department of Human Services, is legislatively mandated to coordinate all statewide functions related to the prevention and treatment of domestic violence and is the entity responsible for enacting the congressional Violence Against Women Act in Michigan.

Adult victims of domestic and sexual violence have a right to safety, privacy, autonomy, and dignity. Specialized services and institutional response and change work are critical to the treatment and prevention of domestic and sexual violence and are key components of our work.

Currently, all Michigan counties are provided domestic violence services to assist adult victims of domestic violence and their children while select counties also have sexual assault services available as well. Services provided include the provision of emergency shelter, 24-hour crisis phone lines, individual and group counseling services, advocacy services, Forensic Nurse Examiner programs, and transitional supportive housing. The goal is to assist victims and their children with issues of safety, independence and self-sufficiency.
