

AFFORDABILITY AND PLANNING (AP) GRANT APPLICATION

Public Act 57 of 2019, Section 1004

Public Act 57 of 2019, Section 1004 authorizes the issuance of grants for water infrastructure affordability and planning from the Michigan Department of Environment, Great Lakes, and Energy (EGLE). Grants may be awarded for asset management plans, water rate plans to support the implementation of asset management plans, or watershed plans supporting long-term infrastructure needs to address public health and environmental risks.

Grants will be capped at \$500,000 per grant if applying on behalf of a single community water supply. Community water supplies can partner together and jointly apply for up to \$2 million of funding for a regional plan. Grant applications must be received by close of business on January 31, 2021 to be funded. Grants are anticipated to be awarded by March 31, 2021. Additional details are discussed on the [AP Grant Overview Guidance Document](#) (EQP1063I).

Any community water supply and local unit of government, including counties, townships, cities, villages, and others are eligible to apply. Applicants must not appear on the Federal Debarment and Suspension List and must be in good standing with EGLE programs (i.e., no EGLE grant revoked or terminated and no demonstrated inability to manage a grant or meet obligations in a project contract with EGLE).
