1. Introduction

This document is the property of the Michigan Department of Health and Human Services (MDHHS). The information contained in this document is for the use of Trading Partners exchanging electronic data interchange (EDI) health care transactions with the State of Michigan's Community Health Automated Medicaid Processing System (CHAMPS).

This document is intended as a companion to the 005010X222 • 837P Health Care Claim: Professional Technical Report 3 (TR3) dated May 2006. This document also includes updates appearing in:

- Errata 005010X222E1 • 837 Health Care Claim: Professional dated January 2009
- Errata 005010X222A1 • 837 Health Care Claim: Professional dated June 2010

The 5010 Implementation Guide and related Errata documents can be purchased from the Washington Publishing Company web site at: www.wpc-edi.com/content/view/817/1

1.1 Scope

This document is expected to be used in conjunction with the Implementation Guides, and related Errata for the 837P transaction set. The content of this document follows the guidelines authorized in the version modifications to the Health Insurance Portability and Accountability Act (HIPAA) Final Rule transaction standards published in the Federal Register January 16, 2009.

This document provides MDHHS-specific instructions regarding certain elements within the Implementation Guides but does not change, supersede, or add to the definitions, data conditions, or use of data elements or segments in the standard. This document provides MDHHS rules regarding:

- Identifiers to use when a national standard has not been adopted
- Parameters in the Implementation Guide and related Errata that provide options applicable to Michigan Medicaid.

1.2 Overview

This Companion Guide is intended for use in the electronic submission of health care encounter claims. Please refer to the MDHHS website for the Companion Guide supporting the submission of health care fee-for-service claims. Claims and encounters cannot be sent on the same 837 Transaction file.

Please refer to the MDHHS Electronic Submission Manual for information regarding:
- Interaction with the MDHHS Data Exchange Gateway (DEG)
- Modes of submission (SSL FTP, or HTTPS)
- Interchange Acknowledgement (TA1) transaction
- Interchange Acknowledgement (999) transaction

1.3 References

In order to successfully download HIPAA transactions from the CHAMPS system, it is necessary to comply with the information contained in the MDHHS Electronic Submission Manual. The most current version of this manual can be downloaded from the MDHHS web site at the following location:

michigan.gov/tradingpartners >> HIPAA Companion Guides >> Electronic Submissions Manual

The following reference document will help you perform testing of your encounters with MDHHS:
- ICD-10 837 Test Instructions Encounters, available at: michigan.gov/tradingpartners >> HIPAA ICD-10 >> Testing >> Business-to-Business (B2B) Testing >> CHAMPS ICD-10 B2B Testing

This document provides testing instructions for Billing Agents (e.g., Health Plans) who send 837 encounter transactions to MDHHS. This document includes instructions on ICD-10 testing as well as instructions to be used by prospective Billing Agents seeking approval for production encounter submission to MDHHS.

1.4 Transaction Description

The ANSI ASC X12N 837P is used to submit prepaid inpatient health encounter and mental health care encounter information from providers of health care services to payers, including managed care organizations. This transaction can be submitted either directly or via intermediary billing services and/or claims clearinghouses

1.5 General Information

All alpha characters must be in UPPER CASE.

Claims and Encounters cannot be sent on the same 837 Transaction file. Refer to the MDHHS website for the Companion Guide supporting the submission of health care Fee-For-Service (FFS) claims.

Effective January 1, 2016, MIChild beneficiary encounters and inquiries must use the Medicaid (CHAMPS) Beneficiary Identification Number, rather than the previous Client Identification Number (CIN); refer to MDHHS Medicaid Bulletin MSA 15-51.

2. Getting Started

2.1 Working with MDHHS

An entity (Provider, billing agent, clearinghouse, etc.) who wishes to retrieve responses, must enroll with MDHHS as a provider or billing agent. Please refer to: "HOW TO ENROLL AS A BILLING AGENT" at the location below for information on provider and billing agent enrollment:

michigan.gov/tradingpartners >> Electronic Submissions Transactions >> How to Enroll

2.2 Certification and Testing Overview

Michigan Medicaid provides test systems for our Trading Partners' use to verify their transactions are properly generated and submitted to MDHHS. The Michigan Medicaid provider community may use the test systems to pursue CMS Level II Compliance, to ensure: "an entity covered by HIPAA has completed end-to-end testing with each of its external trading partners and is prepared to move into production mode"[1].

All MDHHS Providers, Health Plans, Clearinghouses, and Billing Agents are required to test their ability to send valid electronic transactions and obtain appropriate results. Please review the following information with your transaction submission and IT teams, ensure HIPAA test transactions are appropriately identified as "Test", and verify you are working in the test environment when submitting claim, encounter, or query transactions. Be aware that the rates included in the ICD-10 B2B Test system may vary from the actual rates used in the CHAMPS production system. MDHHS offers the following two types of testing:

2.2.1 Ramp Manager Testing

Ramp Manager testing validates the format and syntax of EDI transactions and is required for each new Trading Partner. This testing is also available to existing electronic submitters; it is not a pre-requisite for subsequent CHAMPS ICD-10 B2B Testing.

2.2.2   CHAMPS ICD-10 B2B Testing

Providers and Trading Partners may test claims and encounters using the CHAMPS ICD-10 B2B Test environment. Test claim adjudication reports, encounter processing reports and 835 remittance advice transactions are provided to State Trading Partners for use in their own review and testing functions.

3. Testing with Michigan Medicaid

The MDHHS Electronic Submissions Manual contains an overview of the testing process (see: *Section 1.3 References*). More information on testing is available at:

michigan.gov/tradingpartners >> HIPAA ICD-10 >> Testing >> Business-to-Business (B2B) Testing

In general, the steps to complete testing are as follows:
- Register as an electronic biller
- Obtain authentication credentials appropriate to the mode of electronic billing
- Send an email to: MDHHSEncounterData@michigan.gov and to: MDHHS-B2B-Testing@michigan.gov to request testing enrollment and instructions for using the MDHHS test systems
- Perform the required testing in the MDHHS Test Systems
- Request MDHHS review and approve your test submissions to certify your organization as an electronic submitter, prior to sending production electronic transactions to the MDHHS Medicaid system (CHAMPS).

4. Connectivity with Michigan Medicaid / Communications

4.1 System Availability

The MDHHS CHAMPS system is available 24 hours per day, 7 days a week with the exception of a regular monthly maintenance window, which starts at 6:00 p.m. on the second Saturday of each month and ends at 6:00 a.m. on Sunday. For information on unscheduled outages, please check the Biller "B" Aware page at the following location:

michigan.gov/tradingpartners >> Communications and Training >> Medicaid Alerts >> Biller "B" Aware

4.2 Process Flows

4.3 Transmission Administrative Procedures

4.3.1 Structure Requirements

MDHHS complies with the standards established by the HIPAA Implementation Guides.

4.3.2 Response Times

MDHHS complies with the requirements established by the HIPAA Implementation Guides.

4.3.3 Interchange Acknowledgements

Please refer to the MDHHS Electronic Submissions Manual for information regarding:
- Interchange Acknowledgement (TA1) transaction
- Interchange Acknowledgement (999) transaction

4.4 Communication Protocols

6. Control Segments / Envelopes

This document uses several text conventions to distinguish MDHHS data elements from the Implementation Guide data elements.

6.1 ANSI ASC X12 837P Professional Encounter Companion Guide Rules

The following table lists the text conventions used in this document:

Convention used	Explanation
< >	Text included within < > is the "Implementation Name" field from the TR3 document.
" "	Text with " " around a value represents the value to be submitted. This may be an Implementation Guide value or a specific value required by MDHHS.
( )	The description of the HIPAA Implementation Guide value in quotes, described above, is provided parenthetically.
Light yellow shading	Light yellow shading indicates items changed in this revision of the Companion Guide.

7. Michigan Medicaid Specific Business Rules and Limitations

7.1 Supported Service Types

MDHHS supports the Service Types required by the HIPAA 5010 ANSI ASC X12N 837P Implementation Guide.

8. Trading Partner Agreements

An EDI Trading Partner is defined as any MDHHS customer (Provider, billing service, software vendor, employer group, financial institution, etc.) that transmits directly to, or receives electronic data directly from, MDHHS.

If you are not already submitting electronic transactions to MDHHS, you will need to enroll with MDHHS. Please refer to Section 2.1 for information on enrolling with MDHHS as a provider or billing agent. Enrollment and test certification are required to send or retrieve electronic transactions.

Note: Electronic submitters will need to be associated to their Providers (or to themselves) within CHAMPS to be able to submit and receive transactions on the Provider's behalf.
