

2021 MICHIGAN TRAUMA SYSTEM DEVELOPMENT PROJECT *PARTICIPATION FORM*

PROJECT INFORMATION

The Bureau of EMS, Trauma & Preparedness (BETP) is engaged in trauma system development. This statute driven endeavor is committed to the concept of a regionalized, coordinated and accountable system of care built to ensure injured Michigan residents get the right resources at the right time.

BETP is committed to supporting partners and stakeholders to enhance their efforts in system building. BETP is continuing to support initiatives that fit into the following trauma system building categories: **Injury Prevention, Trauma Education, Performance Improvement, and Trauma Infrastructure**. Partners are encouraged to look at the gaps in programming, resources, and data to determine where they should more finely focus their system building efforts.

This funding is dedicated to supporting trauma stakeholders and initiatives that meet the specific needs of the region, community, agency or facility as they build and support the trauma system. System partners and stakeholders may submit this **Participation Form** to their Regional Medical Control Authority Network (RMCAN), the project fiduciary requesting funding. Qualified facilities will receive reimbursement up to \$8,000 for their program/project. Participation forms will be accepted until COB March 19, 2021. Project award announcements will be emailed starting April 5. Projects may begin with receipt of award email. Projects must be completed by Sept. 30, 2021
