Dear <BeneFull>:

Important: You are being enrolled in a new health & drug plan.

You are getting this letter because you have both Medicare and Medicaid and the way you get your health care is changing. You will soon be enrolled in a program called MI Health Link that replaces your current Medicare and Medicaid plans with a single plan. The plan includes all the benefits you currently receive under Medicare and Medicaid. You will not lose any of your current benefits.

If you do nothing, you will automatically be enrolled in <HealthPlan> on <StartDate>.

Enrolling into this MI Health Link health plan will **not** change your Medicare or Medicaid eligibility.

You will receive a plan ID card from <HealthPlan>. Starting <StartDate>, you need to show your new plan ID card when you get services. You must use your new health plan when you need medical services and prescription drugs on or after <StartDate>.

<HealthPlan> may give you a welcome call before <StartDate>. The purpose of the call is to:

1. Ask you about your current services and providers
2. Schedule a time to meet with you and assess your health and needs
3. Talk about the services <HealthPlan> offers
4. Explain how to get the services you need from <HealthPlan>

However, <HealthPlan> will inform that you have the right to refuse participation in the call.

How will this change affect me?

- You will have one plan for all your Medicare and Medicaid provider and pharmacy benefits.

- You will not pay a plan premium, deductible or copayment when you get services from a provider or pharmacy in your health plan's provider network. Every health plan has a network of providers like doctors, dentists, hospitals and personal care providers who provide your health care services. If your providers are not in the plan's network, they can join it. You may need to see a different provider if your provider does not join your health plan's network.
- Every health plan has a network of dentists who provide your dental care services.
- You can keep getting services and seeing the doctors and other providers you go to now for at least 90 days from <StartDate>. After **<90DaysAfterStartDate>**, you will only be able to see doctors and providers in <HealthPlan> network. You will also have access to at least one 30-day supply of the Part D drugs you currently take during your first 90 days in the plan if you are taking a drug that is not on your plan's List of Covered Drugs, if health plan rules do not let you get the amount ordered by your doctor, or if the drug requires prior approval by <HealthPlan>.
- You will have your own Care Coordinator who will ask you about your health care needs and choices and will work with you to create a personal care plan based on your goals.
- Your Care Coordinator will help you get what you need, when you need it. This person will answer your questions and make sure that your health care issues get the attention they deserve.
- If you need help to live or stay in the community instead of in a nursing home, you may have access to home and community based supports and services if they are medically necessary.
- You will have care coordination of physical and behavioral health care benefits.
- You will be able to call a free, 24 hour nurse help line.
- You will be able to get free, confidential help from an independent ombudsman who helps people if they need information or have any issues or complaints with their health plan.

If you do not want to receive your Medicaid and Medicare Services in <PlanName> what do you do?

If you do not want to be enrolled in this new plan, you need to contact us no later than **<ResponseDate>**. If you are enrolled and decide later that you do not want to continue to be in this health plan, you can call Michigan ENROLLS to disenroll.

What should I do now?

You have options:

1. Keep this enrollment with - <HealthPlan>

If you want to be enrolled and receive both your Medicare and Medicaid benefits from <PlanName>, there is nothing more you need to do. You will receive a welcome kit from <PlanName> with more information.

2. Join a different plan that will include your Medicare, Medicaid, and prescription drug benefits.

3. Keep your Medicare the way it is now and discuss other Medicaid options.

For more information, please contact Michigan Medicare/Medicaid Assistance Program (MMAAP) at 1-800-803-7174.

<HealthPlan> and Medicare Part D

You may have received a letter from your current Medicare Part D prescription drug plan telling you that beginning <StartDate>, your prescription drug plan won't cover your prescription drugs. That is because you are being enrolled in a new health care and drug plan. <HealthPlan> will become your new Medicare Part D plan, which means your last day of coverage in your current prescription drug plan will be <EndDate>. You cannot keep your current Part D plan and be in <HealthPlan> at the same time. You will continue to receive your prescription drug benefits from your current plan through <EndDate>. Your new prescription coverage from the <HealthPlan> will start on <StartDate>. There will be no gap in your prescription drug coverage.
