ACTION ITEMS

CHIRs

- Local Operational Plans** - due April 3, 2017
- Community Systems Change using ABLe Change Model** – If CHIRs are interested in participating in the ABLe Change Model, please submit availability to CHIR@mail.mihealth.org to schedule time to speak one-on-one with Dr. Pennie Foster-Fishman.
- CHIR Cohort Calls Reminder** – A communication was sent on 3/03/2017 regarding this month's 2 CHIR Cohort calls (March 20th and March 28th). The SIM Team is seeking for your input on how best to use this time based on CHIRs needs for completing Local Operational Plans. If there are specific areas of concern or questions we can use this time to address those as a group. The group could also use this time as a collaborative session with each other to discuss aspects of the LOPs, such as CCLs, to gain feedback from one another. The team is available and open to the needs of the group. Please submit your suggestions and questions to the CHIR@mail.mihealth.org by Wednesday, March 8th. The SIM Team will follow up with next steps based on topics/questions submitted.

State SIM CHIR Team

- Individual CHIR Requests** – The State SIM CHIR Team continually works through submitted requests. Action items that pertain to all CHIRs will be communicated through the newsletter. Requests that pertain only to the requesting CHIR will be communicated directly to that CHIR via email or a conference call.

News

- **PCMH Initiative Practice Transformation Learning Collaborative (April 3-4, 2017)** – A communication was sent out 3/1/2017 informing CHIRs of this event. For 2017, the required PCMH Initiative practice transformation objective for participants is the implementation of Clinical-Community Linkages (CCLs). Given the high degree of collaboration surrounding CCLs between CHIRs and PCMHs (within SIM regions), the SIM Team is extending an invitation to each CHIR to send up to two representatives to this event. While CHIR representatives are welcome to attend both days, we recognize this coincides with the submission of your Local Operations Plan. Therefore, discussion focused on CCLs (structured to help PCMHs understand and implement the Initiative's CCL requirement for participating providers) will be on the agenda for day 2 (April 4). Time will be allotted for each CHIR to meet with the PCMHs in attendance from their region. This time can be used for CHIR representatives to discuss the activities and efforts of the CHIR and communicate the CCL strategies CHIRs are planning in the next year. (A formal presentation is not necessary – it is intended to serve as an opportunity for networking and information sharing between CHIRs and PCMHs.) Please register 2 CHIR representations [here](#).

Resources

- **Budget Training Presentation** – The State SIM Team offered training on 2/23/17 and 2/28/17 on budgets and EGrAMS. The presentation and recording can be found on SharePoint [here](#).
- **Community Systems Change Presentation** – The February technical assistance session on

2/28/2017 focused on community systems change using ABLe Change Model presented by Dr. Pennie Foster-Fishman. The presentation and recording can be found on SharePoint [here](#).

- **PCMH and Clinical-Community Linkages Presentation** – A presentation was given on 3/02/2017 on the PCMH role in Clinical-Community Linkages. The presentation can be found on SharePoint [here](#).
- **Technology Guidance** – A communication was sent out 2/23/2017 regarding additional technology guidance. This document can be found on SharePoint [here](#).
- **Community Health Needs Report** – A communication was sent out 2/27/2017 containing the Community Health Needs Report template. It is not a requirement for CHIRs to use this template, however, please use the template as guidance for content expectations. This template can be found on SharePoint [here](#).
- **Participation Guide Section Updates** – A communication was sent on 3/01/2017 regarding the updated sections to the Participation Guide. This document can be found on SharePoint [here](#).
- **Does your Backbone Organization Sustain Itself Without Relying Entirely on Grants?** ReThink Health seeks examples of backbone organizations and multi-sector partnerships that are paid for the value they provide. [ReThink Health Article March 3, 2017](#)
