*As this income was reported during the reporting period, it is included in the report of average and range of wages of employed family independence program recipients for the quarter. This income was budgeted correctly against the individual's benefits when it was received. In some cases, the reported income caused excess income when budgeted and the family independence program case closed due to the income. In other cases, the income was from short-term employment which ended before the income could be budgeted to affect the individual's benefits.
