**Michigan Department of Health & Human Services  
Behavioral Health and Developmental Disabilities Administration  
Fiscal Year 2017 Appropriation Bill  
Section 994(2) Boilerplate Report**

**Background**

The Behavioral Health and Developmental Disabilities (BHDDA) leadership is committed to partnering with the Prepaid Inpatient Health Plans (PIHPs) and provider systems to reduce duplicative oversight while, at the same time, assuring the recipients of services and the Centers for Medicare and Medicaid Services (CMS) that appropriate oversight continues.

A workgroup was initiated in 2012 and met under the leadership of the BHDDA staff. The workgroup consisted of members from the PIHPs, Community Mental Health Services Programs (CMHSPs) and provider network systems. Recommendations for workgroup attendees were initiated by the Michigan Association of Community Mental Health Boards (MACMHB), and meetings were fluid as to numbers of members.

**Status Report**

Deemed status is defined by current Michigan Mental Health Code (MHC) Administrative Rule R330.2702 as waiving portions of the Michigan Department of Health and Human Services (MDHHS) certification review activities on a CMHSP, if a CMHSP is accredited by a recognized national accreditation agency. Of the 46 CMHSPs in Michigan, all but 2 have national accreditation and have received "Deemed Status." A list of CMHSPs and their accreditation organization is attached to this report. It was the consensus of the workgroup that the legislative boilerplate description of "Deemed Status" is broader in application than the MHC definition. Therefore, if a PIHP/CMHSP is granted deemed status by the DHHS, the reduction or elimination of a site review would result.

The only site review activities currently conducted by the Behavioral Health and Developmental Disabilities Administration involve the provision of 1915(i) state plan amendment services for Autism, and three federal 1915(c) waiver programs (Habilitation Supports Waiver, Children's Waiver Program, and Waiver for Children with Serious Emotional Disturbance). All other Behavioral Health and Developmental Disabilities Administration site review activities were placed on hold when the Department initiated the 2013 Application for Participation of Medicaid Specialty Prepaid Inpatient Health Plans process. At the present time negotiations continue with the Centers for Medicare and Medicaid Services over the waiver authority(ies) the Department will utilize for its service delivery system and the quality management oversight activities that will be required in the Department's next waiver application. Once those activities are completed, the Department can resume the process of assessing if accreditation processes cover any of the required oversight areas and generate the additional report elements required in 994 (2)(a) and (b).
